VHB Metro DC, LLC, Opens in Washington, DC

VHB's new entity established to exclusively serve clients in the metropolitan Washington area

Watertown, MA (October 2018) – VHB announces the establishment of VHB Metro DC, LLC, and the opening of VHB Metro DC, LLC's new principal office in Washington, DC, to position the firm for growth in the region and better serve clients. This newly established VHB subsidiary will exclusively serve clients in the metropolitan Washington area, providing integrated planning, engineering, and design services.

"It's a strategic priority to significantly expand our team in major metropolitan locations, including Washington, DC," said VHB President & CEO Mike Carragher. "This new entity presents tremendous opportunities to partner with clients to make a greater impact in improving mobility and enhancing communities and economic vitality throughout our nation's capital."

VHB Metro DC, LLC, includes 28 experienced professionals between its principal office in Washington, DC, and its office in Tysons, VA. The entity will work to obtain Certified Business Enterprise (CBE) certification.

Steve Thomas, CEO of VHB Metro DC, LLC, stated, "Establishing this new entity demonstrates our commitment to providing our DC-area clients with dedicated resources as we continue to build our integrated services offering in the region." Thomas is well recognized in the real estate market for his strategic foresight and client focus. He has played a critical role on major development and corporate campus projects throughout the East Coast, including the Capital One West Creek Campus and Altria Center for Research and Technology in Virginia. "I'm looking forward to working with our strong local leaders, including Jim Long, as we continue to grow in the region," said Thomas.

VHB has served the Washington, DC, area since 2005, when the firm established a presence in northern Virginia. Currently, VHB is leading, or playing a large role in, some of the District's most high-profile projects, including the Washington Union Station Expansion Project; the Long Bridge Environmental Impact Statement; the Bike Facilities Design and Traffic Analysis on-call contract for the District Department of Transportation (DDOT); the DDOT Pennsylvania Avenue NW Streetscape project; the Lincoln Memorial rehabilitation for the National Park Service; the National Desert Storm and Desert Shield War Memorial; and the Children's National Research and Innovation development at the former Walter Reed Army Medical Center.

VHB Metro DC, LLC, is a subsidiary of VHB. www.vhbmetrodc.com.

VHB's 1,400 passionate professionals include engineers, scientists, planners, and designers who partner with public and private clients in the transportation, real estate, institutional, and energy industries, as well as federal, state, and local governments. Together, we work to improve mobility, enhance communities and economic vitality, and balance development and infrastructure needs with environmental stewardship. www.vhb.com.
